Sanctitatis creatae. Ens supernale
ponit in ordinatione quidditativa cum gratia sanctificante constitutionem, omne in quo physica connaturalitas conveniat aut immutat, connaturale aut debitum. Ordinatio quidditativa vocat quae res
cum gratia sanctificante conveniunt physice connaturaliter et mira
physica debita impugnat &c. neque per debitum tradatur
nihil formaliter relinquitur formaliter supernale sub uno titulo
reverendas: neque ordinationes illae cum gratia valde analogae
aut aequivocae sunt. Igitur in hoc dicendi modo nequit
explicari gratia sanctificans, quia est supernalis non nisi per
debitum, ut lapis lapidi debetur; at cum gratia sanctificans
est quid supernale, igitur per passionem nisi loquendo de
gratia satis bene mirae est.

Variis Objectionibus mens nostra asseritur.

1a

Sit Ens supernale nequit explicari nisi per ordinem ad ens increatum
duplex paritas obstat. Una dicit non debere explicari
Ens supernale in ordine ad Deum. Altera debere explicari
in ordine ad ens supernaturale quidquid est. 1a. Nam si paritas pro
ex impugnatione sanctitatis creatae illud explicari in ordine
ad Deum. Resp.: Quia ens supernale debet explicari tum
ordine ad ens creatum, tum ad ens increatum, non in ordine ad
ens increatum ut patet ex dictis. 2a. Per utramque paritatem
comparatione, quod licet gratia cum pluribus entibus debet contra-
ria repugnari in qualibet illarum: ergo gratia debitale entis supernalis
analogice debet etiam repugnari in qualibet entis supernali.
Dist. conseq.: gratia debitale entis supernalis analogice cum
omni ente supernali: quod in ordine ad Deum quod quid
... gratia debitale entis supernalis est debitum
... in omni ente supernali, atqui licet repugnat omnibus
supernalibus quia de facto novimus, adhuc impossibile est
ens supernale in quo non repugnat huic gratiae non repugnat
in omni ente supernali et huic patet ex supra positis.

supi sed Deus non est supernale et supernaturalis solus, quae dicit supernalitatem Deus per exactionem quo est de natura supernaturalis debitus. Deus non exactam aut naturalis quo sibi commodat naturalis exigit et aut exigit supernaturalis cuiuscumque creaturae. Ens quod est supernale, quod creatur, non agit ut vires (media) naturae tanquam debita, ac creatur et increata. No la. Ens supernale quod creatur vires activas, sed vires activas debitas naturae alterius extrinsecas tanquam suas, et creaturalis non sunt quod supernale quia videlicet non credit vires activas debitas. Ab hinc Deus est supernaturalis exigit naturae quo ordinat ad vires activas. Expressio explanatur ens naturale et supernale debet dupliciter fieri in Deo, terris aut intrinsece et extra, per quam una natura alia supernatura dicuntur et vice versa in exigentia aut debitis talis naturalis et naturalis dupliciter.

Quaeritur an Deus dicendus sit eminenter supernale an dicendus sit naturalis tanquam superius prae aliis supra quae sunt quae dicunt Deus esse debitorem supernaturalem quod ad alia; alii dupliciter in Deo ponit illis tamen alii quia dicunt in ordine entis supernaturalis tamen ut actionis in ordine entis naturalis ita Deus existimus. omnes homines volunt salutem [illegible] non possunt odio habe-

Dico quod voluntas nequit amare obiectum in quo nulla

Thesis

Circa rationalis naturalis habeat appetitus innatus a propria beatitudine specialis.

Supponendum est appetitus duplicem esse unus innatus alius elicitus. Innatus est inclinatio ad bonum sibi debitum; elicitus est inclinatio ad bonum quae dependent ab amore et odio. Datur appetitus elicitus. Probatur innatus etiam; ut probatur ex Augustino libro 11 de Civitate Dei capite 28 in omnibus omnibus nullo quidem sensu motu amare potentiam id quam appetere videmus quod naturalibus omnibus rebus quae et sentiunt et ... dendi non omnibus quidem aut vivunt aut aliquid ad id nullo quidem sua adeque videtur tamen decet quaerere quidem rerum locorum et ordines appetitus. Unde probat dari appetitus innatus.

Supponendum est appetitus innatus non esse unum ... sicut aqua habet appetitus innatus ad calorem et habet appetitum ... ad ... proprium locum.

Inquiritur 2º utrum creatura rationalis naturaliter habeat appetitum
innatum ad beatitudinem supernaturalem. Ratio non habet appetitum
innatum. Si haberet creatura rationalis non habet appetitum ad
beatitudinem supernaturalem, id beatitudo frustra [illegible] supernaturalis
quod non habet appetitum ad beatitudinem. Frustra enim talis bea-
titudo esset, ad quam inclinationem debitam talis [illegible]
in frustra et [illegible] naturaliter [illegible]
innatum tendit ad ea, ubi debitum ad beatitudinem super-
naturalem nullus [illegible] debitum ergo. minor probatur quia appeti-
tus innatus non est separabilis. omne [illegible] quomodo
omne supernaturale est indebitum naturae et excedat
vires naturae. Confirmatur quod omnis appetitus innatus in
statu violento est contra naturam: ergo creatura rationalis esset
in statu violento et contra beatitudinem [illegible]
[illegible] debitam nulla alia ratione nisi in statu
violento sine [illegible] quia esset indebita ergo. Confirmatur
illud omnis status naturae est ab statu violento
distinctus. illud in statu naturali id beatitudo non de-
beretur creaturae rationali in statu naturali id supernaturale ergo. probatur
quia licet humanitas [illegible] naturale [illegible]
supernaturale [illegible] unio hypostatica [illegible]
supernaturali [illegible] creaturae rationalis naturalis, [illegible] huma-
nitas non [illegible] violenter sine unione hypostatica [illegible]
quae creatura rationalis [illegible] habet appetitum innatum
creatura rationalis habet appetitum innatum ad beatitudinem supernaturalem
quia talis beatitudo indebita est [illegible]
[illegible] tali. Arguitur.

Quilibet carentia beatitudinis
naturalis ipsis electis ad quos [illegible] aversionem liberat
in creaturis rationalibus naturalis liberat aversionem beatitudinis
beatitudinis supernaturalis quod constat ex [illegible] una in gratia [illegible] fiat
[illegible] donum [illegible] erat [illegible] dicendi damnati
sequuntur [illegible] carentia [illegible] beatitudinis [illegible] non [illegible]
[illegible] creaturis rationalibus liberat aversionem
indifferenter ab amore et odio non differunt [illegible]
[illegible] hunc [illegible] naturalis [illegible] debi-
tis. Damnati autem qui sunt [illegible] ad beatitudinem
[illegible] ad beatitudinem dependent ab amore, et [illegible]
non indifferent ex [illegible] allato. Constat hunc [illegible]
[illegible] dependent ab amore
[illegible] naturalis [illegible].

Dicitur universaliter [illegible]
[illegible] carentia boni [illegible] id beatitudo est bonum
[illegible] rationalis [illegible] deinde aversionem hominum
[illegible] beatitudinis [illegible], id carentia beatitudinis
[illegible] beatitudinis [illegible]. [illegible] videntur
[illegible] dependent ab amore et odio in [illegible] voluntatis
quando caret bono [illegible] indifferent ab amore
et odio [illegible] quando caret bono dependent
non duplex est beatitudo una [illegible] eo quod homines
sunt [illegible] et sunt liberi [illegible] habent [illegible]
[illegible] sanctificante [illegible]
[illegible] dependent ab amore et odio [illegible] indifferent
[illegible] talis [illegible] liberat [illegible]
dependent ab amore et odio.

Probatur secundo creatura rationalis
naturaliter habet innatum appetitum ad bonum suum seu ad beatitudinem
cum beatitudo sit naturalis [illegible] naturalis est in actibus intellectus
et voluntatis ergo habet innatum appetitum ad suum bonum seu beatitudinem. Probatur tertio quia naturaliter habet appetitum
innatum quatenus debetur ei suum debitum ut debitum
[illegible] per [illegible] habet appetitum innatum ad suum
[illegible] debitum [illegible]. In quo [illegible] habet
innatum appetitum ad suum [illegible] naturale [illegible] naturaliter [illegible]
innatus appetitus [illegible] debetur appetitus innatus
et creatura rationalis naturaliter habet [illegible] naturaliter ad suum [illegible] appetitus innatus ad
[illegible] hic beatitudo. Quod autem naturaliter non [illegible]
[illegible] per [illegible] debetur [illegible] beatitudinis
creaturae.

Probatur secundo creatura rationalis habet appetitum
innatum ad suam beatitudinem seu ad suum [illegible]
[illegible] habet appetitum innatum ad beatitudinem [illegible] quam
[illegible] beatitudinem [illegible] ut [illegible] beatitudinem suam [illegible]. In quo [illegible] habet appetitum innatum
[illegible] quam [illegible] in statu [illegible]
praecipue quam [illegible] beatitudinem suam
[illegible] in statu [illegible] non in
[illegible] ad [illegible] quamvis [illegible]
[illegible] et tamen habet appetitum innatum [illegible]
[illegible] non [illegible]
[illegible] quamvis [illegible] appetit innatum [illegible]
quia [illegible] non [illegible] ubi [illegible] naturali [illegible]

debeat. Omnis eius hoc prius debeat poni quoque ad operationem
quasi sit ex altera dicens alterum omnis ... ex eorum fine
quo ... sufficient debeant ... ad illud exequendum.

De Voluntate efficaci et inefficaci.

Non loquor de voluntate prima efficaci, id inter efficacem, inefficacem
voluntas efficax dicitur quae vi sua ponit objectum, inefficax
vero quae vi sua non ponit objectum. Clarius voluntas efficax est qua
Deus ita vult ut ex vi eius tendentiae determinatus maneat
Deus ad objectum exequendum; inefficax vero quae ex vi sua tendendi non ma-
neat determinatus. Dixi ex vi sua eius tendendi quia voluntas
inefficax non sufficit quamlibet tractionem sui in objectum, neque ... debet
determinari, pandens ... eius ad objectum, nihil enim voluntas efficax
illius est. Sic nempe aliis terminis omnis eius operatione alia
tamen inter efficacem et eam inter inefficacem ... ... quam lo-
varius causa. Unde voluntas inter efficax est quae suo quasi
vehementi tendendi modo in objectum reddit Deum determinatum ad
objectum sive id efficaciter ... ... in eo objecto ...
... tendendo Deus ad sui ... in tali ... operationem;
illa autem voluntas quae ex intimo modo tendendi quae neque ...
... eius objecto erit inefficax. Duplex autem est aliqua voluntas
inefficax, una simplicis complacentiae, quando actu quasi
... inter magis complacentiae ... et voluntas efficax.

Simplex complacentia
seu ... quae tendit in objectum quasi ... terminatam
ut ex vi illius ad nil maneat voluntas dedicata ... ponere
objectum neque ad acquirendam ... ponendam media ad ... ...
... prius ... sic Deus complacet in ... ... Alia
est voluntas inefficax quae non est ... complacentia, id est ... voluntas
... objecti ... quae ex vi sua ... non debeat ad ponere
... neque ad ponenda media in ... ad ... ... Unde
... datur ... voluntas ... ... voluntas manet

manet liberum ad assentiendum mandato infallibili iussio
ad obiecti prius manet hominis dictatum ad assentiendum mandato sic
iussio ad non impediendum ergo dictamen non ex obiecto internalis
dictamen dicitur voluntas inefficax quamvis gratia simpliciter
absolute efficaciter dictaminatur.

Dices in Deo dari efficax
non praeveniens sed obiecti existit ex voluntate non ex quo voluntati
D. 1232. fecit in caelo et in terra et Deus omnia voluntate: ergo
fecit. Sic gratia. dat enim in Deo voluntas inefficax quam voluntas
efficax et inefficax id est in Deo dat voluntas efficax et
voluntas inefficax primo dat in Deo voluntas qua vult omnes
homines salvos fieri et venire ad agnitionem id est voluntas
ipsa efficaciter primo plures homines damnantur et Matth.
Deus vult salvos generaliter unusquisque vero et tamen voluntas ipsa
efficaciter.

Id vero voluntas inefficax nullus habet obiecti
simpliciter gratiam non habet obiecti mere possibile aliquando non datur
quaevis a simplici gratia neque futura aliquando et est efficax
id nullus obiecti est [illegible] possibile futuri et nullus habet effectum
vel [illegible] futuri quid est [illegible] regulari
Deus [illegible] exparte sui [illegible] non habet
efficaciam circa salutem eius. Deus velit inefficaciter non dari
a gratia ex obiecto id est non [illegible] circa illud [illegible]
[illegible] obiecti mere possibile et quod nunc [illegible] efficax
gratia [illegible] et illius [illegible] ad illius
voluntas vero inefficax dicitur ad [illegible] sufficientia
[illegible] ad [illegible] efficaciter
Deo non efficaciter [illegible].

Praedestinatio
Est ac praevia eorum destinatio quando Deus ab
aeterno decrevit ex voluntate sua destinare et deducere ad
praedestinandos in tempore gloriam creaturas intellectuales. Duplici
dicitur acceptatione praedestinatio late quidem et stricte late
sumitur pro quacumque qua Deus destinat creaturas
intellectuales ad beatitudinem vel ad aeternam damnationem. Stricte
sumitur pro ut Deus ordinavit creaturas intellectuales
in vitam aeternam qua ratione dicitur Electio: in hac stricta
acceptione hic definitur praedestinatio:
praedestinatio Dei est aeterna et efficax destinatio creaturae
intellectualis in vitam aeternam. Dicitur Dei quia solius [illegible]

aug. dicatur. Pro. quia ex supposita praedestinatione

disponit Deus conferre gloriam ut praedestinatis via atque et

quomodo usus libertatis debeat procedere debitum finem

secundum suam conditionem praedestinatus libere consequetur

gloriam: quare ex illa dispositione sequitur ut libere, indefectibiliter

liberum gloriam consequatur? et cum sufficientia quam ex

supponat conatus ex dispositione de gratia seu modo se.

Unde duo actus praedestinati sunt ante praevisa

merita, sunt vero praedestinati in parte quod dicitur ha

natum ex hujus finis praevisa merita.

Ad duo

Omnes qui de facto gloriam consequuntur sunt prae-

destinati, tuae quae caeteri autem adipisci non

possunt sunt reprobati: et ideo omnia sunt

termini sunt qui praedestinavit vocavit et quos vocavit

justificavit et quos justificavit glorificavit, glorificavit tam

de Paulo omnes praedestinatos dicit quia omnes glo

rificati sunt ut praedestinati justificati et vocati, sunt.

Ad S. Thom. qui praedestinatos dicit destinatos ad videre elevatos, et

omnes satis sunt ii qui sunt eximie electi

sicut hic habetur. Chrysostomus dicit destinatos

et ordinatos satis quidem sancti patres Christo esse

alios praedestinatos esse aut de gratia excellenti

per alios respectu nostro praedestinatos quomodo

praedestinati habent aliquem nullius etc. in specialis

alios in praedestinatione ut omnes sunt pauci

hic satis est.

Probatur Deus est summum ens, summeque perfectum
nullaque ei deesse potest ut erat. Utrum ita est Deus perfecte creare
mundum illa excellentia Deus nexime potest quia Deus debet esse summe
quatenus perfectus. Potest mundus tamen ut ei creando maxime
unitatem, aut deinde, quia Deus cum alio non mundi, ut a se talis
Deus cum aut se addere acciperet, id potius ut illud aliud ad se
mundus usque effectus exabundantia sui boni quin indigeat, nec Deus sic
creatus quare mundus in perfecte ex toto aliud nec Deus in perfectione
quin extollere infinitatis, quod erat ex supreme Deo libera est sine implere
est, quod magis ordinetur ad Dei perfectionem debet supplere ad creandum
ex bonitate, ex quod Deus cum perfecte creavit, perfectius est ab eterno
Deo probatur in dependentia ex quo quod absolute est, ut erat summum
bonum, absolute summo bono, id ostenditur ita scilicet, quasi mundus ab aeterno
creatus summi boni per rationem quod est tantum absolute mundum
nec quod Deo bonum, quod potentia creato quod ut tale absolute est et
quia peccata ut hoc mundi, et tamen peccatum nec absolute
quin quia habet absolute creati in perfectione ut primitiva habet, quia
nec aliquid bonum non sit omnino defectum, efficientiam, hinc aut absolute
perfectus, deinde maxime quod non inficit neque in toto ad Deum etiam
ad summum perfectum Deus nec sub ipso necessarium, quod tam eterno
eius existentia, hinc mundum nihil.

Probatur: Ens magis ignarum
nequit mundus minus ignarum; sed Deus est ens infinite magis ignarum
in creaturis, quia cum perfectionibus perfectus deinde in infinitum
quod perfectior mysteria in creaturis minus perfecta est tam maxime perfecta quia
perficientur sui perfectionis in perfectione mysteria sit in illis, quia nec aliud
in infinitum maximum creatum in infinitum nec admittit magis ad mundus

Disputatio Quarta Scholastica de Sacro Trinitatis mysterio

In Compendium redacta

Nulla certè in universa theologia difficilior, magis delicata et superans humanos Angelicosque captus est tam arduus [illegible] mysterii [illegible] ingredimur Sui indigemus auxilio Dei cuius [illegible] suspicio [illegible] ingredimur. Trinitas nil aliud est quam haec unitas ac identitas, quare fides Catholica credit Patrem, Filium, Spiritum [illegible] in Deo [illegible] Trinitatis aut [illegible] de quibus nunc [illegible] tractatur [illegible] de hoc Sacro [illegible] [illegible] Pater et Filius [illegible] Sacramenti [illegible] de summa Trinitate [illegible] et singulos [illegible] Deus [illegible] Pater, Filius et Spiritus [illegible]

tres sunt qui testimonium dant in Caelo Pater
Filius et Spiritus Sanctus et hi tres unum sunt.

Oportet credere
confiteri [illegible] unum Deum in 3 personis non solum separatas
esse id est [illegible] et quod idem [illegible] alioquin
[illegible] [illegible] quod [illegible] [illegible] [illegible]

una persona dicuntur de alia [illegible] [illegible]

[illegible] dari eandem naturam et essentiam [illegible]
in 3 personis et quod idem identificatus [illegible]
[illegible] natura in 3 non [illegible] [illegible]
hoc probat ex Simbolo Sancti Athanasii [illegible]
et Spiritus Sanctus [illegible] omnipotentes et
non tres omnipotentes sed unus omnipotens
[illegible] [illegible] [illegible]. Haec est fides Catholica
ut unum Deum in Trinitate et Trinitatem in unitate vene-
remur neque confundentes personas neque
substantiam separantes.

rationem cujus est in personis increatis relationes transcendentales ad terminos, iterum
relationes transcendentales debent esse distinctae quam actio. Deinde quia in Divinis
non datur relatio ~~producti~~ distincta ab ubi datur generatio relationes

realiter ex filio per ipsam actionem, quare potest ad terminum. Ita
haec et filius opponuntur relationes p. Dices non Tabach quamvis
in personis quo generaverit filii excludit filius abiciendi sic
ipso eodem quibus sunt ad filium et genitos relative relationes
sunt quamvis per productionem filius opponat filio, et omnes ipso

Dicent
autem personis quo, et hinc productio datur distinctio realis, et cujus distinctio realis
quivocatur Distinctio realis sufficiens, utrum persona productione
sicut sufficiens et etiam etiam sit realiter productio, et filius non

distinctio realis cum actio quae illis productio et productio realiter

Graeci; sed adhuc realis distinctio relatio in spiritu sancto quedam
addebent realem [illegible] ex eo adhuc stat spiritus sanctus a filio non

spiritus sanctus et filius habent distinctas personas et relationes distinctas

Quaeres

existunt nomina in Divinis.

Nomina
de quibus dubitatur sunt divina essentialia, et notionalia
unde probatur quod attribuimus in essentialia, notionalia possunt
praedicari in abstracto et in concreto. Dico 1o abstracta
essentialia singulariter dicuntur in Divinis: quae unus sunt singulari
ter quae Deus dicitur singulariter, quae unus in Divinis, id unica
essentia: 2o abstracta vero notionalia dicuntur pluraliter
[illegible] singularitati, quae plurae sunt dicuntur plu
raliter, sed abstracta notionalia sunt plurae quae sunt
Dei relationes. 3o singulariter quae dicitur una Paternitas
et Filiatio.

Dico 3o concreta essentialia subinde abstracta
dicuntur singulariter quae concreta, sicut abstracta significant for-
in substantivo, sed unica essentiale multiplicatur in Divinis quamvis
sit ibi multiplicitas suppositorum: 4o, concreta adiectiva
abstracta multiplicantur, quae concreta sicut abstracta significant
suppositum [illegible], sed sunt tria suppositia, et contra essentialia
distincta quod numero Deus nunquam dicitur, adiectiva, et

subsistentiae adaequatae eo sensu quo fiat actus in supposito B 49
numquam vero suppositum sine actu. Ratio est, quia
relationes tam activae quam subsistentiae aliquae pluralitatis
dicuntur neque fiant sine suppositis affectatis actu
quantitate; subsistentiae quae fiant sunt incommunicabiles, sed sunt tamen singulariter
utpote p. spiratur actus dicitur duo supposita spirantia
subsistentia distinctis singularibus, neque unica est spiratio. Ex
dictis colligitur in ipsis terminis actualis aut vitalis in immanentis

naturaliter in sanctis ut Pater non filius aut Philosophia

quia ipsi sunt individualiter at tamen perfecti [illegible] omnes tamen [illegible] sine proxime. Scilicet [illegible] fuerit tamen [illegible] apprehendere obiecta aliqua et aliud valeat [illegible] ut apprehendant.

De [illegible]

Intellectus [illegible] realiter intellectum [illegible] quia aliquid [illegible] est inactuali operatione quod implicat in [illegible] notandum communem [illegible] et quidditas abstractas et apprehensivas. [illegible] communis intuitivas illas communiter quidditatis obiecti [illegible] aut non alienas ut [illegible] quae [illegible] ad [illegible] obiecti [illegible] fundatur in aliqua [illegible] talis [illegible] quidditas [illegible] obiecti [illegible] communicando [illegible] quidditas [illegible] obiecti [illegible] obiecti [illegible] abstractivas [illegible] abstractivas communes [illegible] non [illegible] et conditione illarum [illegible]

Quomodo Angeli [illegible] cognoscant

[illegible] apprehensiva [illegible] adaequate [illegible] obiecti [illegible] conditiones obiecti [illegible] qualitate [illegible]

eos cognoscere certum est, evidet quia Daemones naturaliter possunt videlicet
omnibus potentiis Angelis. Confirmatur quia Angeli naturaliter nunquam
cognoscunt et comparant dependenter ab alio, et naturaliter cognoscunt
Daemones. Dico tertio, in quo consistit cognitionem. Angelus naturaliter
potest abstractive Daemones cognoscere, quia nequeunt Angeli cognoscere
intuitive Daemones et abstractive; patet quia cognoscunt abstractive et
immediate obiecta non existentia et aliquos Daemones non existentes, quia
ab Angelis cognoscuntur Daemones intuitive, cognoscunt abstractive
[illegible] talem quidditatem quam Angeli cognoscunt Daemones [illegible]
[illegible] causam [illegible] et cognoscunt
talem quidditatem Daemones non intuitive et existentem quidditatem,
autem [illegible] Daemones [illegible]
[illegible] quae existentem quidditatem quam non cognoscunt
eius [illegible] naturaliter eos Daemones [illegible] naturaliter videlicet [illegible]
immediate existentem obiectum et [illegible] cognitionem Angelicam
Daemones non cognoscunt. Angelus [illegible] cognoscere [illegible]
naturaliter Daemones quia plures Angeli cognoscunt [illegible]
[illegible] liberas [illegible] cordis [illegible]
naturales [illegible] Angelus [illegible] Daemones cognoscere
[illegible] naturaliter cognoscit [illegible] ad cognitionem claram
[illegible] plures Angelis cognoscit [illegible]
tanquam [illegible] Daemones cognoscunt [illegible] naturaliter
cognoscere.

Cognitio [illegible] per [illegible].

Angeli habent obiectum ex vi nominis obiecti unde Angeli nec naturaliter nec supernaturaliter possunt comprehendere Dei ex illo, iudicia eius sunt incomprehensibilia. Deus [illegible] comprehensibilitas ab intra divino et creato.

[illegible] cognitionis obscurae vel cognitionis obscurae et qualis comprehensivae a cognitione clara. [illegible] quod Angelus naturaliter habet cognitionem claram, quando obscuram, negatur: [illegible] in Patria remanet fides, nec aliquas obscuritates quia habent visionem. [illegible] clarioris cognitionis clarae non dat cognitionem obscuram. Dico et dico quod non implebatur [illegible] incoherentiam obiectis ideas fide et [illegible] ex diversis modis incoherentia dantes tales cognitiones ex diversis modis [illegible] unde non [illegible] [illegible] in Patria non vult loqui [illegible] [illegible] non datur obscuritas, quia obscuritas [illegible] in [illegible] cognitione clara in diversis modis.

Angeli [illegible]

An Angeli cognoscant comprehensive.

Angeli habent obiecta magis proportionata ad cognitionem sui intellectus quam naturaliter [illegible] quia ad cognitionem intellectus requiritur quod obiecta intelligibilia [illegible] ad Angelos intelligentes [illegible] ad suam cognitionem [illegible] comprehensive, quia Angeli cognoscunt omnem causam rationem quam cognoscibilis est ex vi nominis ipsius. Sed quia ipsi Angeli non

stantiis nec proinde intuitivè quia p[er] [illegible] [illegible]
